PRESS RELEASE

LIFE CERSUDS disseminates its objectives and progress at the World Congress on Tile Quality, attended by more than 600 participants from several countries.

- *LIFE CERSUDS presented an oral presentation and posters at the Qualicer Congress, a scientific forum held every two years and attended by more than 600 scientists and ceramics industry professionals, aimed at boosting ceramic quality.*

Castellón, 15th february 2018. The Institute of Ceramic Technology (ITC) as coordinator of the LIFE CERSUDS Ceramic Sustainable Urban Drainage System project, has participated in Qualicer, the World Congress of Tile Quality that is held every two years in the Chamber of Commerce of Castellón, under the organization of the Chamber of Commerce and the College of Industrial Engineers of Castellón, while the ITC constitutes the Technical Advisory Committee of this congress that in 2018 has been held in the city of Castellón, and has received more than 600 attendees from countries such as France, Germany, Brazil, Turkey, Greece, among many others.

In addition to presenting the oral communication on the LIFE CERSUDS project, the LIFE CERSUDS project rolled out a roll-up with information on this work at the ITC stand at Qualicer, an indispensable meeting point for

the scientific community that is keen to promote the positioning of ceramic material in the world at all levels.
